ABOUT ME

Self-driven B.Tech CSE (AI & ML) student with a developing understanding of core computer science concepts such as Database, Backend, Machine Learning. Exploring the design of smart, practical AI solutions. Familiar with Python and Go, with basic knowledge of Data Structures and Algorithms, DBMS, and a strong willingness to learn and grow.

EDUCATION

SECONDARY & HIGHER SECONDARY EDUCATION

2020-2023

Barajagul Gopal Academy

BRAINWARE UNIVERSITY

2023-2027

B-Tech-CSE(AI&ML) GPA-8

SKILL

- python, Go
- DBMS, AI&ML, Deep Learning, Pytorch, FastAPI
- git, Github, Docker, Pandas, Numpy
- DSA, Problem Solving
- Communication skill
- Backend Development

PROJECTS

Credit-Card ML Model

Developed a machine learning-based credit card fraud detection system to identify fraudulent transactions with high accuracy. Performed data preprocessing including handling class imbalance, feature scaling, and data cleaning.

Git Hub repo:- https://github.com/Surajit09636/Credit_card_fraud_detection_model.git

Friend's Chitchat (Chat Application) (My Contribution- Backend) In Development

Friends Chitchat - A full-stack chat application built using React, FastAPI, and PostgreSQL with JWT authentication and email verification. Implements secure user login/signup, REST APIs, and complete frontend-backend integration.

Git Hub repo:- https://github.com/Surajit09636/Friends_chitchat.git

mini-k8s

Built a mini container orchestration system with scheduling, replication, and container lifecycle management

Git Hub repo:- <https://github.com/Surajit09636/mini-kn8s.git>
